

Small Classes, Small School, Big Results

Excerpt from Adam Lubliner, Class of 2008:

"I am currently an associate attorney at a small law firm here in San Diego and graduated from TCPS in 2008.

Looking back, I honestly cannot praise The Child's Primary School highly enough. The individualized care and attention from the faculty inspired me not only to work harder than I otherwise would, but to also seek personal growth by realizing my strengths and talents.

...their encouragement and positive reinforcement helped me grow and better prepared me for later in my education and for life in general."

"The biggest thing about TCPS that I valued was the student-teacher relationship and being able to have a personal connection to the teachers. This allows the teacher to get to know us better as students and help our growth."

- Arjun, Class of 2017

"Looking back at my experience attending TCPS, I can confidently say that this is not just a school, but also a community, and there's no place that can compare."

- Dani, Class of 2016

"TCPS has guided me throughout the years and inspired me to be the best version of myself. TCPS taught me perseverance. I studied hard and improved. I learned that through hard work, I could succeed at TCPS and then follow my dreams."

- Brandon, Class of 2019

The Child's Primary
SCHOOL
A learning community since 1983

Annual Giving

has a direct and significant impact on keeping our classes small. This provides students with a successful social and academic environment proven to be effective for the past 36 years.

Why Is Your Support So Important?

Tuition alone does not cover the full cost of an enriched educational experience at TCPS.

Annual Giving is essential to help bridge the gap.

Every TCPS student benefits from Annual Giving.
